

JASMANJOT SINGH SARNA

DATA & AI PROFESSIONAL

9079636451 | jasmansarna@gmail.com | [linkedin.com/in/jasmanjot-singh-sarna](https://www.linkedin.com/in/jasmanjot-singh-sarna)

SUMMARY

Final-year B.Tech Computer Science (AI & ML) student with hands-on experience across data analytics, AI engineering, and business analysis through internships at AppGallop and Samatrix, four independent technical projects, and ten industry certifications from IBM and Google. Skilled in Python, SQL, Power BI, Scikit-learn, and machine learning frameworks (TensorFlow, PyTorch), with practical exposure to ETL, data cleaning, data modeling, EDA, statistical analysis (regression, clustering, hypothesis testing), data visualization, dashboard development, computer vision, generative AI, and prompt engineering. Combines technical execution with leadership experience managing cross-functional teams.

CORE SKILLS

Languages & Databases: Python, SQL (Joins & Queries), Java, Supabase

AI/ML & Computer Vision: TensorFlow, PyTorch, Scikit-Learn, OpenCV, MediaPipe, OpenAI API, Machine Learning, Computer Vision, Large Language Models (LLM), Generative AI, Prompt Engineering, Classification, Regression, Clustering, Model Evaluation

Data & BI Tools: Power BI, Advanced Excel, Pandas, NumPy, Google Colab, Data Analysis, EDA, ETL, Data Modeling, Data Visualization, Data Cleaning, Statistical Analysis, Hypothesis Testing

Core Competencies: Stakeholder Communication, Requirements Gathering, Leadership, Problem-Solving, Analytical Thinking, Team Management, Adaptability

PROFESSIONAL EXPERIENCE

Data Analyst Intern – AppGallop Pvt. Ltd.

Feb 2025 – Jan 2026

- Performed end-to-end data preprocessing and exploratory data analysis (EDA) using Python and Pandas to identify trends and improve data accuracy.
- Built interactive KPI dashboards in Power BI and Excel to track key performance metrics across business operations, improving reporting clarity.
- Automated recurring reporting workflows and presented data-driven insights to stakeholders to support decision-making.

Summer Intern – Samatrix Consulting Pvt. Ltd.

June 2025 – July 2025

- Cleaned and transformed raw datasets using analytical and statistical techniques to produce accurate, decision-ready data.
- Conducted structured data analysis to identify patterns and trends relevant to business use cases.
- Presented findings through clear written reports and structured communication to support project goals.

PROJECT EXPERIENCE

CareerForge AI – AI-Powered Career Guidance Platform

AI Engineer | Team project with Parag Ragnakar & Ojas Bhatt

- Built core AI logic for an AI-powered career guidance platform for Indian engineering students using Python and OpenAI's API.
- Designed and managed a Supabase database backend to support user data and platform functionality.
- Collaborated within a 3-member team to deliver a live working prototype and a professional project presentation.

AI ATS Resume Builder

Python, OpenAI API

- Developed an AI-powered resume builder tool using Python and OpenAI's API to generate tailored, ATS-optimized resume content.

- Designed prompt logic to align resume content with job-specific keywords, improving compatibility with applicant tracking systems.

Face Emotion Recognition System

Python, OpenCV, TensorFlow, PyTorch, Google Colab

- Built two CNN-based deep learning models — one using TensorFlow and one using PyTorch — for real-time facial emotion detection.
- Processed and prepared image datasets for model training and evaluation in Google Colab.
- Developed a real-time prediction interface using webcam input via OpenCV.

Air Canvas – Gesture-Based Drawing System

Python, OpenCV, MediaPipe, NumPy, Google Colab

- Designed a gesture-controlled, contactless drawing system using OpenCV and MediaPipe for real-time hand tracking.
- Implemented a virtual canvas enabling drawing interactions through hand gestures captured via webcam.
- Built and tested the system in Google Colab, using NumPy for array and image data processing.

EDUCATION

B.Tech – Computer Science Engineering (AI & ML)

2023 – 2027 (Expected)

JECRC University, Jaipur | CGPA: 7.7

CERTIFICATIONS

- IBM Data Analyst Certificate
- Google Data Analytics Certificate
- Google Business Intelligence Certificate
- IBM Data Scientist Certificate
- IBM Business Analyst Certificate
- Google Business Analyst Certificate
- IBM AI Engineering Certificate
- IBM AI Developer Professional Certificate
- Google Project Management Certificate
- Google Digital Marketing Certificate

LEADERSHIP & EXTRACURRICULAR

Head of Incoming Social Sector – AIESEC Jaipur

Feb 2025 – Present

- Led cross-functional teams across marketing, finance, and operations for international projects.
- Coordinated execution timelines and stakeholder communication across teams.
- Built performance tracking dashboards to support accountability and team efficiency.

Event Coordinator – JECRC University (JU Rhythm / Innov8)

- Coordinated large-scale university events, managing 100+ participants and logistics operations.
- Handled on-ground execution, crowd management, and team coordination under pressure.
- Collaborated with multiple teams to ensure smooth event delivery and attendee experience.
